

# TOGETHER, WE LIVE UNITED.

United Way mobilizes communities to action so all can thrive. With deep local roots around the world, we see how our communities' greatest challenges are connected — and how we can bring people and resources together to address them.

In tens of thousands of communities across the globe, we're galvanizing people, organizations, and resources to build youth opportunity, financial security, and healthy, resilient communities.

True to our founding spirit, wherever there is a need in our communities, United Way is there. We bring a comprehensive approach to every challenge, actively listening and responding to local needs.

With deep local roots around the world, we see how our communities' greatest challenges are connected — and how we can bring people and resources together to address them.

That's why we're here, in our communities, always listening and ready to respond. Working together with our neighbors, we're strengthening local resilience and advancing health, education and financial well-being for all. Our global reach and local presence means we can share ideas and scale innovations for global impact.

United Way steps up, wherever help is needed. Whenever a crisis or opportunity arises, we're here and ready to take action with data-driven, community-led innovations.

United Way made life better for 48 million people across the world last year. But we didn't do it alone: we partnered with 35,000 companies, including more than half of the Fortune 500, and 29,000 community agencies.

We're helping more than 5.4 million people invest in their own communities, 1.4 million volunteer in meaningful ways, and thousands make themselves heard to policymakers.

Every day, our communities show that when people unite to take action, change is possible.

Together, we're creating a future where every one, everywhere can rise.
